

personally yours

Suntile to serve you personally

"I want to do *everything* I can to bring a *personal* flavor to this home of mine—to make it more enjoyable and *more livable* for all my family."

How many times have you said that to yourself—as you planned your new home or as you mulled over "things" you wanted to do to spruce up your old one?

For instance, *what to do* about those much-used, hard working rooms—bathroom, kitchen, laundry, patio?

How to make them more colorful, more beautiful, more *personal*—and still keep them ever ready for rough usage, the brush of many hands, the beat of many feet...?

There is a way. Use Suntile. It's real clay tile. No other decorative building material offers you *so much as real clay* tile.

To your bathroom, your kitchen, your laundry, your patio—Suntile brings wondrous new colors, everlasting beauty, work-saving convenience, lifetime service.

"Well, what is Suntile?"

Suntile is a real clay tile that's truly Color-Balanced. There's no finer tile made.

Clay is one of the oldest and most reliable decorative and building materials known. For centuries, man has built beautiful *clay* brick homes, decorated them with clay tile,

had his meals served to him on *clay* china.

You may compare Suntile's beauty to your finest chinaware, or to a lovely decorative vase—both made of real clay.

In the tile industry, Suntile is synonymous with *quality*. Sixty

years' experience in the tile field by the Cambridge Tile Mfg. Co. guarantee you perfection in the form and finish of Suntile, and in your complete satisfaction in its use in your home.

"Why will I always be happy with Suntile?"

There are so *many* reasons!

Suntile's wonderful *Color-Balance* is one reason.

Suntile's *ease of cleaning* is another! Fewer hours of scrubbing and rubbing—more time for fun and living! All you need to keep Suntile walls sparkling new is simple cleansing with a damp cloth or soap and water. You see, Suntile has a smooth, impervious finish. Household trouble-makers can't hide. *Suntile keeps them on the surface* where you can get at them quickly and easily.

Suntile's *durability* is still another! Whether on walls or on floors, this real clay tile has lifetime resistance to scratching, marring and cracking. Never any unsightly burns or stains. Suntile *keeps* its good looks for the life of your home.

Suntile's *low maintenance* is another good reason. Your first cost is your last cost. Suntile wears almost forever—never needs costly painting or redecorating—saves you plenty of money.

Suntile's *quality installation* is still another! Suntile is sold and installed only by Authorized Suntile Dealers who have been trained and have the "know-how" to guarantee you satisfaction for years to come.

Suntile colors are personal, too

“What colors shall I choose for my home?”

Color has an emotional quality. Talk to color scientists and they'll tell you that your choice of color tells the particular kind of person you are.

You like some colors, dislike others. Members of your family feel the same way. Now, if you had a meeting of minds on color, you could easily find “common denominators” that would give a real *personal* flavor to your home, make all of you happy.

Do you and your family like cool greens or blues—or do you find yourselves more attracted to warm shades of red and yellow? Or something in between like peach or tan or pink?

Whatever you choose, you can make color *do things* for your rooms—especially in the kitchen and the bathroom—rooms intended primarily to serve you and your family.

If your rooms are small and you want to make them appear larger and brighter, use light, cool retiring colors . . . blues, greens and grays. Warm colors . . . reds, browns and yellows . . . are perfect for giving a cozy, friendly feeling to rooms facing north and east. Many people like to be bold about color, achieving dramatic contrasts. Others like to use colors that blend and harmonize.

Color-Balanced Suntile gives you your color!

In the Suntile color palette, you're sure to find colors that will suit *you* and all your family.

Suntile colors are the result of an extensive study of color preference throughout the country.

Under the direction of Faber Birren—internationally recognized color authority—the Cambridge Tile Mfg. Co. has carried on careful research to obtain colors most desired by the American public, colors of great visual appeal most adaptable to subtle, beautiful decorating.

With Suntile, you can achieve any desired effect. Suntile is Color-Balanced! That means the Suntile color line has been selected from those colors which allow you the widest possible selection of harmonious color combinations for the decorative scheme of your home.

Use *Suntile's* Exclusive Color-Balanced Services

Your Authorized Suntile Dealer has the experience and the equipment to demonstrate Color-Balance for you.

Through the exclusive Suntile Rainbow Chest you can see in a few minutes Color-Balanced tile combinations of your personal preference. The Rainbow Chest contains panels of full size tile that will show you just how your Suntile floors, walls, wainscot and trim will look in your kitchen, bathroom, laundry or patio. There is no guesswork and a great saving of time and trouble for you and your family.

Remember the fun you used to have looking at stereopticon pictures? This same principle is used in the new Suntile Stereo-Realist Viewer Kit. Your Suntile Dealer can show you three-dimensional color slides of beautiful Suntile installations. Here you can see the complete room, get new ideas, see how Suntile fits in so nicely with fixtures, furniture and equipment. Here's Color-Balance in action.

Your Suntile Dealer can also show you the Suntile Rainbow Kit in your home. With this kit you can easily visualize the final installation, see how suggested colors fit into your overall color scheme.

Before you build or remodel, be sure to have a demonstration of the exclusive Suntile color service. It will save you time and trouble, help you get a lifetime of satisfaction.

If you want better tile . . . better installation
rely on your Authorized *Suntile* Dealer

Suntile means Better Tile. It also means Better Installations. For a lifetime of Beauty, Convenience and Service, the installation is as important as the tile itself.

Because of this, the Cambridge Tile Mfg. Co. selects its dealers with great care. Suntile is sold and installed only by responsible tile contractors who have been franchised as Authorized Suntile Dealers. These dealers are chosen for their long tile experience and their business integrity. As a result, every standard quality Suntile installation is guaranteed. You, therefore, have a double reason for making Suntile your personal selection . . . the finest of tile and a guaranteed installation.

Rely on your Authorized Suntile Dealer for Better Tile—Better Installation. He can show you real clay Suntile in many beautiful wall colors and a variety of fascinating floor colors. With these carefully selected colors he can help you work out almost limitless Color-Balanced combinations.

Your Authorized Suntile Dealer is a man you should know. He may be listed in the classified section of your telephone directory. If you do not find him there, we shall be happy to send you his name and address.
